PROFILE

Python & Django Developer with 1+ year of experience in web development, specializing in building scalable and efficient applications using Django, REST APIs, SQL databases, authentication systems, and responsive user interfaces. Strong understanding of backend architecture, CRUD operations, and real-world project implementation with performance optimization.

TECHNICAL SKILLS

Primary: Python, Django, REST API, WordPress, HTML, CSS, Bootstrap, SQL

Secondary: JavaScript (Basic)

Tools: Git, GitHub

EXPERIENCE

Web Developer — Jamia Akkalkuwa (1 Year)

- Developed and maintained multiple WordPress-based websites with fully responsive layouts across desktop, tablet, and mobile devices while ensuring consistent UI/UX experience.
- Built complete websites from scratch including layout design, content structure planning, and performance optimization for faster loading speed and better usability.
- Improved user experience by optimizing design elements, enhancing performance, and managing regular updates, feature additions, and bug fixes efficiently.

PROJECTS

Hotel Management System

- Developed a comprehensive hotel management system including room booking, real-time availability tracking, and customer data management for efficient operations.
- Implemented billing functionality along with authentication, admin dashboard, and complete CRUD operations for managing rooms, users, and booking records.

Technologies: Python, Django, HTML, CSS, Bootstrap

Smart Complaint Management System

- Built a complaint management system enabling users to register, track, and monitor complaint resolution status with real-time updates.

Technologies: Python, Django, HTML, CSS, Bootstrap

Fees Management System

- Developed a system to manage student fee records, payment tracking, and transaction history with accurate data handling.

Technologies: Python, Django, HTML, CSS, Bootstrap
